Math	nematics - Goals:	
	Goal(s) address specific math standard(s): Number Sense and Operation, Data Analysis, Geometric Reasoning, Algebraic and Functional Reasoning.	
~	Goals are data driven.	
	Goal(s) is too general (doesn't include number of students or to what level of improvement).	
	Mathematic goal lacks specificity, what grade levels are targeted	
	Mathematics goal is not measurable as stated	

Measurable objective clearly articulates the relationship to school/district goals. Measurable objective contains necessary components for all levels of system (students, teachers, leaders). Measurable objective develops/demonstrates a strong relationship to school/district goals and focuses on meaningful school improvement issues. Measurable objective effectively supports focused, meaningful continuous school improvement. Multiple tools are listed to gather data for measurable objectives. Mathematics - Identified Strategies: Strategies are clear and focused. Rational is given for choice of strategies. Specific and research-based strategies stated. Strategies are measurable. Method, materials, and timeframe for implementing strategies are indicated. Strategies are based on realistic expectations. Mathematics identified strategies are unclear and/or lacks specificity. Mathematics identified strategies do not support stated goal. Mathematics - Professional Development: Ongoing and sustainable professional development is evident. Needs assessment drives professional development abevelopment throughout the year. Topics or content of professional development matches goal and strategies. Commitment to plan and its components is evident. The implementation of new resources (math program, curriculum, and/or textbook/materials) is supported by professional development for the impacted staff throughout the year. Topics or content of the student data is used to assess the impact of professional development. Mathematics professional development goal is unclear and/or lacks specificity.
